Summary

Full-stack developer with comprehensive experience in Agile environments. Proficient in building scalable web applications, including flashcard platforms, personalized learning tools, authentication systems, and real-time collaborative apps, with expertise in monorepo architectures, responsive design, CI/CD, and accessibility enhancements.

Skills

Languages: CSS, HTML, JavaScript, Typescript.
Tools: Apidog, Bash, Bun, Docker, Git, Node.js, Postman, Swagger.
Libraries & Frameworks: Express, Hono, Next.js, React, SASS, TailwindCSS.
Databases & ORMs: Drizzle, MySQL, MongoDB, Postgres, Prisma, Redis, Sequelize.
Cloud & Platforms: AWS, Azure, Github, GCP, Neon, Netlify, Render, Supabase, Upstash, Vercel.
Technologies & Concepts: CI/CD, JWT, microservices, OAuth, REST APIs, state management, RSC, websockets.

Experience

Full-stack Developer   *December 2025 - Present*
Chingu – Voyage Program | Remote

- Collaborated in a full Agile/Scrum environment, participating in scrum activities in a remote cross-functional team.
- Built Confido, a full-stack application with a monorepo-based architecture, featuring role-based flashcard questions.
- Developed a frontend with role-selection, questions flow, summary views, theme integration, and responsive view.
- Implemented infrastructure and tooling, including CI workflows, health checks, and automated quality checks.
- Improved accessibility, semantics, and navigation for an enhanced quiz-taking experience.
- Team's Github repo: github.com/chingu-voyages/V59-tier3-team-32

Projects

Confido: A role-base interview questions generator
- Project is live at: v59-tier3-team-32-web.vercel.app. Github repo: github.com/chingu-voyages/V59-tier3-team-32.

Routana: A personalized learning and goal-oriented roadmap generator
- Project is live at: routana.onrender.com. Github repo: github.com/absterr/Routana.

NodeAuth: An authentication system for typescript
- Github repo is available at: github.com/absterr/NodeAuth.

Scrib: A real-time document and note-taking application
- Project is live at: scrib-puce.vercel.app. Github repo: github.com/absterr/scrib.

Education

Federal University of Technology, Minna | Minna, Niger
Computer Engineering | 02/2026
