Summary

Full-stack Javascript/Typescript developer with over 3 years building web and mobile applications in Agile teams. Focused on frontend implementation, backend APIs, real-time collaboration, authentication, CI/CD, and testing across projects using technologies such as React, Node.js, Next.js, Expo, and PostgreSQL.

Skills

Languages: JavaScript, Typescript.
Frontend: React, React Native, Next.js, Expo, TailwindCSS, RSC, state management.
Backend: Node.js, Bun, Express, Hono, JWT, microservices, OAuth, REST APIs, websockets.
DevOps: Docker, Git, GitHub Actions, CI/CD.
Databases: MySQL, MongoDB, PostgreSQL, Redis, ORMs, query builders.
Cloud & Platforms: AWS EC2, Azure Functions, Cloudinary, Neon Postgres, Supabase, Vercel.

Experiences

Full-stack Developer *December 2025 – February 2026*
Chingu – Voyage Program | Remote

- Led task estimation and backlog refinement with JIRA while building Confido in an agile environment.
- Translated Figma designs into responsive UI features including flashcards, feedback flows, and summary views.
- Implemented CI/CD pipelines with GitHub Actions, API health checks, and ESLint based code quality enforcement.
- Automated frontend and API testing using Vitest, pre-commit hooks, and continuous integration workflows.

Software Developer Intern *June 2024 – November 2024*
DreamLabs – Internship | On-site

- Supported web application development by building and maintaining features within an agile workflow
- Assisted with developing reusable UI components and integrating APIs across multiple application features.
- Improved application performance, accessibility, and frontend usability through testing and debugging efforts.
- Participated in code reviews, deployment workflows, and CI/CD practices using Git, GitHub, and other development tools.

Projects

Confido [Next.js, Node.js, Express, PostgreSQL]: A role-based interview questions generator

- Project is live at: v59-tier3-team-32-web.vercel.app. Github repo: github.com/chingu-voyages/V59-tier3-team-32.

Routana [React, Node.js, Express, Drizzle, Neon]: A personalized learning and goal-oriented roadmap generator

- Project is live at: routana.onrender.com. Github repo: github.com/absterr/Routana.

Scrib [Next.js, Bun, Drizzle, Neon, Yjs]: A real-time collaborative document and note-taking application

- Project is live at: scrib-puce.vercel.app. Github repo: github.com/absterr/scrib.

Education

Federal University of Technology, Minna | Minna, Niger
Computer Engineering | 02/2026
